

# SCAPA BOAT RANGE

## Scapa Seeker 370

- Traditional clinker design, craftsman built
- Excellent for inshore, loch or river use
- Easy to launch, handle and recover
- Strong, stable and safe in use
- Needs only 4hp for great performance

Length	12ft 3.70m
Beam	3.8ft 1.10m
Weight	110kg
Design Category	C
Recommended Engine	4hp
Maximum Engine Size	5hp

The Scapa Seeker has the same strength and stability as the other boats in the Scapa range. This includes being tested to meet the EU Recreational Craft Directive 2003/44/EC Category C. This makes her suitable to use in inshore / coastal conditions up to and including wind force 6 and waves up to 2 mtrs. This standard having been met means the Scapa Seeker is a safe, stable fishing boat that can be used with confidence.

The Scapa Seeker is constructed in GRP to provide a strong and lightweight hull for ease of launch and recovery. It comes as standard with Rowlocks, Oars, Non Slip Seats, Built In Buoyancy, Stainless Bow Eye, Non Slip Motor Mount and Safety Bolt.

You can have your Scapa Seeker supplied in the standard form as above or have it fitted out to your own requirements at extra cost. We are happy to discuss with you your exact needs to make your Scapa Seeker the boat you cant do without no matter what your use is.

# Four Stroke

## Propeller hub exhaust

Through-the-prop exhaust is used to achieve nice, quiet running conditions.

## Throttle grip

The twist type throttle control provides quick steering as well as one-handed operation capability.

## Integral tank

With a built-in fuel tank conveniently located on top, 3.5 and 2.5 becomes ready for cruising quickly and without taking up extra space in the boat. An external fuel fitting also comes standard with the 6/5/4hp models to allow the motor to hook up to a remote fuel tank as well.

## Four point dampening system

The specifically designed motor dampening system reduces vibration at all rpm ranges.
